

3.1 RAIL EXTENSION KIT 9-INCH RAILS WITH SPLICES

9-Inch Rail Extension for our TTP-A & Ground Mounts

With this Extension Kit:

TTP-A-3 & TTP-A-6 Mounts

Max module width is 47.5"

3-Module Ground Mounts

Max module width is 46"

4-Module Ground Mounts

Max module width is 43.75"

Installation Instructions

The 3.1 Rail Splice comes partially assembled with one end of the Rail Splice inserted 5-inches into the 9-inch rail held in place by one bolt and channel nut. Slide the second section of rail over the splice until it contacts the first section of rail and install the second bolt and channel nut. Tighten both bolts to 144 inch-pounds (12 foot-pounds). Either locking bolt may be loosened and moved slightly if it interferes with mid-clamp placement when installing modules.
